**Dear Participants,
Dear Heads of Delegations and Coaches,**

On behalf of the International University Sports Federation, it is a pleasure and honour for me to welcome you in Kazan – Russia – at the occasion of the 27th Summer Universiade from July 6 to 17, 2013.

I would like to emphasise the enormous work made throughout the last two years by the FISU technical delegates under the supervision of the CTI Chair persons and the sports directors from the Organising Committee. They have worked continuously in close co-operation with the different National Sport Federations to give the opportunity to the student athletes to compete in the best possible conditions.

The manual which is presented to you here is a result of the efforts made by each and every one in order to provide the team officials and athletes all necessary sports information to participate in a smooth manner and perform at their best.

We would like to thank the officials and members of the Organising Committee for their hard work in making this event the biggest in the FISU history. Without their enthusiasm and permanent involvement we would not have been able to integrate all partners (volunteers, judges and referees, private and public sectors, and athletes) in this event.

We, FISU and the local Organising Committee, look forward to your participation.

We are convinced that this 27th Summer Universiade will be an outstanding success and a great sporting and human experience for all participants.

I and the entire FISU Family wish you all the best for a most successful Summer Universiade here in Kazan.

Claude-Louis GALLIEN

FISU President

Dear friends!

It is a great pleasure for me to welcome you to the 27th Summer Universiade in Kazan.

It will not be an exaggeration to say that a project of such scope is a significant event for the whole Russia. Our country hosted a competition such as this only once that was 40 years ago.

From the first days of the bidding campaign, the Universiade was fully supported by the government of the Russian Federation. Much work has been done to ensure that the competitions are held at modern, well-equipped sports stadiums and that your stay in the capital of Tatarstan is a comfortable and interesting as possible.

The attitude of the government and society to sports clearly shows the level of the nation's development and serves as a kind of country's landmark. The success of the Universiade in Kazan is a foundation stone for Russia's future objectives in holding the Olympic Games 2014, the FINA World Aquatics Championships 2015 and the FIFA World Cup 2018.

Over the next two weeks, national student teams from all over the world will demonstrate their skills in 27 sports disciplines. I am confident that your persistent training, strength of will and combative spirit will help you to achieve the best results, meet the expectations of your coaches, entertain your fans and prove that you are the future of the world sport.

I wish all the Universiade participants good luck in the competitions and I wish our foreign guests memories of their stay in Russia. I hope that you will have an opportunity to explore the contemporary life and cultural diversity of our country and enjoy the hospitality of our people.

First Deputy Chairman of the Government of the Russian Federation, Chairman of the Organising Committee of the 27th Summer Universiade 2013, Kazan

Igor Shuvalov

Dear participants and guests of the World Student Games in Kazan!

On behalf of the Ministry of Sports of the Russian Federation and on my own behalf, I would like to welcome the participants and guests of the 27th Summer Universiade 2013 in Kazan!

Over the next two weeks, Russia will demonstrate its capability to host large-scale multisports events to the whole world. We are pleased that back in 2008 Kazan attained the privilege of hosting the World Student Games which is a considerable responsibility. During this relatively short period of the time, the city, where sport is regarded as primary tool to improve its citizens' quality of life, has drastically transformed to a high-technology metropolis with a developed infrastructure and modern sports facilities.

It is of great importance that this large-scale, nationwide event has contributed to the unification of efforts throughout the entire country. Many regions became enthusiastically engaged in the preparation for the Games and provided maximum support to the Republic of Tatarstan.

The Universiade project gave tremendous impetus to the development of students sport not only in the region, but also in the whole Russia. Leading higher educational establishments are setting up student leagues in different sports, thus providing conditions for students to lead a healthy lifestyle during the university years and afterwards.

We are confident that these sports competitions, first of all, will enable the integration of students from all over the world in the international sporting community and strengthen friendly relations between countries in the name of peace and prosperity on our planet.

I express hope that you being strong, dedicated and energetic young people will become famous athletes and set a worthy example for the younger generation.

There are still many achievements ahead of us! May the heights that we will achieve at the Student Games ensure our future victories!

I wish you high professional results!

Minister of Sports of the Russian Federation, Deputy Chairman of the Organising Committee

Vitaly Mutko

**Dear friends!**

I would like to offer a warm welcome to all of the participants of the 27th Summer Universiade 2013 in Kazan.

For two weeks, the capital of the Republic of Tatarstan – one of Russia's most rapidly developing regions – will become the leading world centre for youth sports.

The opening of the University Games was preceded by a tremendous effort to construct modern sports facilities and comfortable hotel complexes, as well as to modernise the infrastructure of our city. Many thousands of our citizens took part in this task – our entire republic came together. Russian Federation authorities and sports organisations played major roles in the preparation for the Universiade.

I am sure that our guests will take note of the massive transformations that we have undertaken in recent years.

Additionally, it is important to point out that year after year the popularity of sports is on the rise in the Republic of Tatarstan, and the development of physical education continues to be a shared priority for both the government and society. Our republican sports teams and athletes continue to make their mark in the annals of Russia's sports victories and achievements.

I have great faith that the Universiade 2013 will be remembered as a milestone in the development of international student movement and youth sports.

With all my heart, I would like to wish all of the participants of the competition successful starts and new records.

May the talents of both athletes and coaches shine, may new sports stars be born, and may this festival of youth and sport be remembered for its hospitality and for its atmosphere of friendship and sincerity.

Welcome to Tatarstan, my dear friends!

**President of the Republic of Tatarstan,
Vice-Chairman of the Organizing Committee**
